

DIAGNOSTICS AND CUSTOM MADE VACCINES

• FOR CHICKENS •

Ani*cn*

PORTFOLIO

AniCon is offering a very broad spectrum and continuously updated Portfolio of diagnostic methods. See the Chicken portfolio for yourself on www.anicon.eu.

Chicken Profiles

PCR-Diagnostic

Take advantages of favourable conditions for selected chicken PCR profiles, sophisticated and accurate PCR services performed by poultry experts on-site at AniCon Labor GmbH.

1 PCR – “Common Pathogens Package”*

Order testing for at least two and up to all listed pathogens out of this list at graduated pricing.

does not apply for DIVA-PCRs and sequencing

MG	AIV
MS	IBV
ORT	IBDV
	ILT
	ART (SHS) A/B/C
	PMV-1 (NDV)

2 PCR – IB Variants*

- Avian Coronavirus Screening
- Variant-specific detection by PCR for:

- Find new or rare variants by Sequencing and Phylogenetic Analysis, combined with Divergence Analysis of protein sequence after *in silico* translation.

793B (4/91)	QX (D388)
D1466	Massachusetts
D274	Italy 02
Arkansas	Variante 2 (Israel 02/
Q1	IS1494)
	IB80

3 PCR – Clarification Package for AIV positives*

H5
N1
H7
H9

4 PCR – Enteric Virus Package

Corona
Picorna
Rota (chicken)
Astro (chicken)

5 PCR-Adeno-Reo followed by preculture

Because direct diagnostics from raw samples by PCR methods may lead to false negative results, AniCon run several passages of virus cultivation before confirmation by PCR methods in harvested cultural material.

Adeno
Reo

*Samples of up to five individuals can be pooled. It is absolutely necessary to indicate if sending several swabs whether these are already pooled or need to be pooled. Provision of results for sample receipts: Monday – Thursday until 5:30 p.m. day after submission. All services are subject to the General Terms and Conditions. More information on www.anicon.eu

CMV: Custom-Made-Vaccines for Chickens

Protection by tailor-made vaccines. For commercial layers and broiler parents.

Vaccination is an excellent tool for the prevention of infectious diseases in livestock. A custom-made-vaccine is the tool of choice to induce an effective immune protection in poultry in case other preventive strategies are absent. Application of custom-made-vaccines for chicken improves the health status of your flock and will help reducing antibiotic treatments.

Polyvalent products:

Combinations are possible

Adjuvants:

Aluminium-Hydroxide or Mineral Oil

Volumes per Dose:

0,3 or 0,5 ml / bird

Bottle size:

200 ml, 250 ml, 300 ml or 500 ml

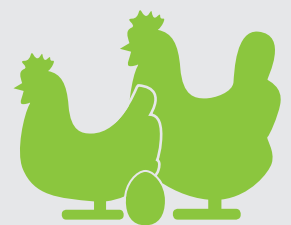

We offer innovative vaccines for chicken comprising the following antigens:

Bacterial Antigens incl. Mycoplasma

- Avibacterium
- Bisgaard Taxon
- Bordetella
- Clostridium
- Enterococcus
- Erysipelothrix
- Escherichia coli
- Gallibacterium
- Mannheimia
- Mycoplasma
- Ornithobacterium
- Pasteurella
- Salmonella
- Staphylococcus
- Streptococcus

Viral Antigens

- Adeno
- Infectious Bronchitis
- Influenza H9N2
- Reo
- Rota

We at **AniCon** regard ourselves as a competent and reliable partner in the field of animal health and food safety.

Diagnostic Services (Accreditation ISO 17025)

- Pathology
- Cultural bacteriology
- Cultural virology
- Serology
- PCR and sequencing

Diagnostic Kits

- Kylt® Real-Time (RT-) PCR-Kits

Custom-Made-Vaccines for Livestock

- Poultry
- Swine
- Cattle
- Fish

Food Safety (Accreditation ISO 17025)

Examination of food/-of animal feed/drinking water/-for animals

- Microbiological /chemical analysis
- Molecular /Immunological analysis
- Histology
- Quality Management & Consulting

AniCon ist Ihr kompetenter und verlässlicher Partner in den Bereichen Tiergesundheit und Lebensmittelsicherheit.

Diagnostische Dienstleistungen (Akkreditierung ISO 17025)

- Pathologie
- Kulturelle Bakteriologie
- Kulturelle Virologie
- Serologie
- PCR und Sequenzierung

In Vitro Diagnostika

- Kylt® Real-Time (RT-) PCR-Kits

Bestandsspezifische Impfstoffe für Nutztiere

- Geflügel
- Schwein
- Rind
- Fisch

Lebensmittelsicherheit (Akkreditierung ISO 17025)

Prüfung von Lebens-/Futtermitteln, Trink-/Tränkwasser

- Mikrobiologische / Chemische Prüfungen
- Molekularbiologische / Immunologische Prüfungen
- Histologie
- Qualitätsmanagement & Beratung
- Gegengutachten

AniCon es un colaborador competente y fiable en los sectores de salud animal y seguridad alimentaria.

Servicios de diagnóstico (Acreditación ISO 17025)

- Patología
- Cultivos bacteriológicos
- Cultivos virales
- Serología
- PCR y secuenciación

Diagnósticos in vitro

- Kylt® Real-Time (RT-) PCR-Kits

Vacunas específicas para animales destinados al consumo

- Aves
- Cerdos
- Vacas
- Peces

Seguridad alimentaria (Acreditación ISO 17025)

Pruebas de productos alimenticios/piensos, agua potable

- Pruebas microbiológicas / químicas
- Pruebas de biología molecular / inmunológicas
- Histología
- Gestión y asesoramiento de calidad

AniCon est votre partenaire compétent et fiable dans les domaines de la santé animale et de la sécurité des produits alimentaires.

Services de diagnostic (Accréditation ISO 17025)

- Pathologie
- Bactériologie de culture
- Virologie de culture
- Sérologie
- PCR et Séquençage

Diagnostics in vitro

- Kylt® Real-Time (RT-) PCR-Kits

Vaccins spécifiques à chaque élevage pour les animaux d'exploitation

- Volaille
- Cochon
- Bovin
- Poisson

Sécurité des Produits Alimentaires (Accréditation ISO 17025)

Test des produits alimentaires, de l'eau pour consommation humaine / animale

- Tests microbiologiques / chimiques
- Tests de biologie moléculaire / immunologiques
- Histologie
- Gestion de la qualité et service de conseil
